TABLE OF CONTENTS

NUMBER 1, JANUARY 1974

Alvarez, M R & Lavender, K, Nuclear cytochemical changes in rat adrenal glands stimulated by adrenocorticotrophic hormone 1

Stefos, K & Arrighi, F E, Repetitive DNA of *Gallus domesticus* and its cytological locations 9

Bosmann, H B, Case, K R & Morgan, H R, Surface biochemical changes accompanying primary infection with Rous sarcoma virus. I. Electrokinetic properties of cells and cell surface glycoprotein: Glycosyl transferase activities 15

Bosmann, H B, Lockwood, T & Morgan, H R, Surface biochemical changes accompanying primary infection with Rous sarcoma virus. II. Proteolytic and glycosidase activity and sublethal autolysis 25

Flickinger, R A & Humphreys, T, Increase of RNA synthesis with DNA replication in sea urchin blastulae 31

Moav, B, Goldberg, A & Avivi, Y, Fractionation of somatic and sperm chromatin during spermatogenesis in fish 37

Szpirer, C, Reactivation of chick erythrocyte nuclei in heterokaryons with rat hepatoma cells 47

Kato, H, Differential chromosomal sensitivities of aneusomic cell clones to UV light 55

Lehmann, A R, Kirk-Bell, S, Shall, S & Whish, W J D, The relationship between cell growth, macromolecular synthesis and poly ADP-ribose polymerase in lymphoid cells 63

Giese, A C, Photoreactivation of excystment delay in *Colpoda*, induced by far ultraviolet radiation 73

May, M S & Bello, L J, Replication of repeated DNA in human cells 79

Morisawa, M & Mohri, H, Heavy metals and spermatozoan motility. II. Turbidity changes induced by divalent cations and adenosine-triphosphate in sea urchin sperm flagella 87

Fakan, S & Hancock, R, Localization of newly-synthesized DNA in a mammalian cell as visualized by high resolution autoradiography 95

Bhuyan, B K & Fraser, T J, Frozen DON cells as a source for a cell cycle assay of antitumor agents 103

Tata, J R & Baker, B, Sub-nuclear fractionation. I. Procedure and characterization of fractions 111

Tata, J R & Baker, B, Sub-nuclear fractionation. II. Intra-nuclear compartmentation of transcription in vivo and in vitro 125

Schroeder, T E & Strickland, D L, Ionophore A23187, calcium and contractility in frog eggs 139

Lapan, E A & Morowitz, H J, Characterization of mesozoan DNA 143

Courtois, Y, Dastugue, B & Kruh, J, Effects of lysine deprivation and serum stimulation on the synthesis of non-histone chromosomal proteins by confluent chick fibroblasts 152

Zimmerman, J, Brumbaugh, J, Biehl, J & Holtzer, H, The effect of 5-bromodeoxyuridine on the differentiation of chick embryo pigment cells 159

Moens, P B, Esposito, R E & Esposito, M S, Aberrant nuclear behavior at meiosis and anucleate spore formation by sporulation-deficient (*spo*) mutants of *Saccharomyces cerevisiae* 166

Brasch, K & Setterfield, G, Structural organization of chromosomes in interphase nuclei 175

Murphree, S, Moore, E C & Peterson, D, Temporal variation of adenine ribonucleotides during the cell cycle of Chinese hamster fibroblasts in culture 186

Claycomb, W C & Villee, C A, DNA-binding proteins of *Xenopus laevis*. Synthesis during oogenesis-ovulation and early embryogenesis 191

Houk, M S, Respiration of starfish oocytes during meiosis, fertilization, and artificial activation 200

Pouchelet, M, Etude autoradiographique sur cellules L929 de l'incorporation des précurseurs marqués des DNA, RNA et des protéines pendant l'action d'un choc thermique et lors du retour à 37°C 207

Parker, J W, O'Brien, R L, Steiner, J & Paolilli, P, Periodate-induced lymphocyte transformation. III. Effects of temperature and pH 220

NUMBER 2, FEBRUARY 1974

Alvarez, M R, Early nuclear cytochemical changes in regenerating mammalian liver 225

Piñon, R, Salts, Y & Simchen, G, Nuclear and mitochondrial DNA synthesis during yeast sporulation 231

Oikawa, T, Nicolson, G L & Yanagimachi, R, Inhibition of hamster fertilization by phytoagglutinins 239

O'Neill, C H & Burnett, M E, Inhibition of spontaneous aggregation by wheat germ agglutinin in suspensions of BALB/c-3T3 and BHK21 tissue culture fibroblasts 247

Mayhew, E & Maslow, D E, Cytochalasin B and the sialic acids of Ehrlich ascites cells 255

Choe, B K & Rose, N R, Synthesis of DNA-binding protein in WI-38 cells stimulated to synthesize DNA by medium replacement 261

Choe, B K & Rose, N R, Synthesis of DNA-binding proteins during the cell cycle of WI-38 cells 271

Dragomir, C T, Stefanescu, D T, Constantinovici, A & Oleanos, J, Active transport mediated by physical processes. Evidence resulting from ^{133}Xenon passage into the red cell 281

Gould, R P, Selwood, L, Day, A & Wolpert, L, The mechanism of cellular orientation during early cartilage formation in the chick limb and regenerating amphibian limb 287

Goldstein, S, Aging in vitro. Growth of cultured cells from the Galapagos tortoise 297

Plagemann, P G W, Richey, D P, Zylka, J M & Erbe, J, Thymidine transport by Novikoff rat hepatoma cells synchronized by double hydroxyurea treatment 303

Weiss, L, Studies on cellular adhesion in tissue culture. XIV. Positively charged surface groups and the rate of cell adhesion 311

Loir, M & Lanneau, M, Separation of ram spermatids by sedimentation at unit gravity 319

Mân, N T & Cole, R J, Quantitative changes in chromosomal activity during chicken myogenesis in vitro, a DNA-RNA hybridisation study 328

Millis, A J T, Forrest, G A & Pious, D A, Cyclic AMP dependent regulation of mitosis in human lymphoid cells 335

Gates, R E, McClain, M & Morrison, M, Surface peptides on intact Ehrlich ascites tumor cells. Identification by a method not requiring subcellular fractionation 344

Itagaki, A & Kimura, G, TES and HEPES buffers in mammalian cell cultures and viral studies: Problem of carbon dioxide requirement 351

Sachs, H G, Stambrook, P J & Ebert, J D, Changes in membrane potential during the cell cycle 362

Edmunds, L N, Phasing effects of light on cell division in exponentially increasing cultures of *Tetrahymena* grown at low temperatures 367

Timourian, H, Jotz, M M & Clothier, G E, Intracellular distribution of calcium and phosphorus during the first cell division of the sea urchin egg 380

Kuroiwa, T, Fine structures of interphase nuclei. III. Replication site analysis of DNA during the S period of *Crepis capillaris* 387

Liebeskind, D, Hsu, K C, Erlanger, B & Bases, R, Immunoreactivity to antinucleoside antibodies in X-irradiated HeLa cells 399

PRELIMINARY NOTES

Runyan, W S & Liao, T H, Estimation of intracellular fluid volume of L cells 406

O'Dell, D S, Ortolani, G & Monroy, A, Increased binding of radioactive concanavalin A during maturation of *Ascidia* eggs 408

Ord, M G & Stocken, L A, Thymidine uptake by *Paracentrotus* eggs during the first cell cycle after fertilization 411

Mandel, P, Helwig, J J & Bollack, C, Rapid preparation of pure glomeruli and tubular fragments from rabbit kidney. Distribution of alkaline phosphatase 414

Unhjem, O & Prydz, H, Interference of serum and serum components with attachment of HeLa 71 cells to the surface of plastic culture vessels 418

Nilsson, O, Lindqvist, I & Ronquist, G, Decreased surface charge of mouse blastocysts at implantation 421

Czihak, G, The role of astral rays in early cleavage of sea urchin eggs 424

Edström, A, Haglid, K G, Kanje, M, Rönnbäck, L & Walum, E, Morphological alterations and increase of S-100 protein in cultured human glioma cells deprived of serum 426

Kolodny, G M & Rosenthal, L J, Absence of DNA-associated RNA in the fully repressed nucleus of the chicken erythrocyte 429

Dickerman, L H & Goldman, R D, A rapid method for production of binucleate cells 433

Aw, E J, Holt, P G & Simons, P J, Myogenesis in vitro: Enhancement by dibutyryl cyclic AMP 436

Sumner, A T, Involvement of protein disulphides and sulphydryls in chromosome banding 438

Knutsen, G, Lien, T & Skoog, L, Deoxyribonucleoside triphosphate and DNA synthesis in synchronized cultures of *Chlamydomonas* 442

Gibson, D A & Prescott, D M, Sister chromatid exchanges in isolabeling 445

de la Maza, L M & Yunis, J J, Chromatin fractionation of normal and virus-transformed cells in culture 447
